## THE BATONS

The Pomeroy Baton is typically carried by the Faculty Marshal as a symbol of the authority and leadership of the Larner College of Medicine. It is named in honor of Dr. John Pomeroy, who in 1804 was appointed as the first medical faculty member of the University of Vermont. The baton was commissioned in 1982 by Dean of Students David Tormey, M.D., who sent medical student Mark Iverson to choose a white oak beam from the Pomeroy House on Battery Street, which was undergoing renovation. Iverson turned the piece to Dean Tormey's instructions, and in 1983 was the first to carry it in his Commencement Ceremony.

The Staff of Aesculapius, a serpent-entwined rod associated with healing and the practice of medicine, is typically carried by the Class President, who acts as the Class Marshal and leads the graduating class into the ceremony. This Staff was a gift to the College from alumnus Robert Sharkey, M.D.'50 in honor of his 50th Reunion in 2000.

## ACADEMIC ATTIRE

The distinctive attire of those participating in the academic procession represents a tradition that reaches at least as far back as the Middle Ages, when gowns became the required dress at many European universities. The University of Vermont was among the first in this country to experiment with the use of academic gowns, requiring them at the 1806 graduation. Near the end of the century, universities began wholeheartedly to use the medieval scholars' clothing for ceremonial occasions.

- ✦ The doctoral gown has large bell-shaped sleeves with three velvet crossbars on the upper portion of the arm and velvet trimming down the front of the gown. The trim color usually indicates the field of study of the recipient (e.g., the M.D. degree is indicated by green trim and the Ph.D. is usually blue). The color of the gown is usually black, but can vary depending on the alma mater.
- ✦ The doctoral cap for Larner College of Medicine graduating students is a four-sided, black velvet tam with a gold tassel. Only doctoral caps may be made of velvet and only doctors or presidents of institutions may wear a gold tassel on the cap.
- ✦ The colorful hood indicates the institution, degree, and specialty. For doctoral degrees from the University of Vermont, the hood is four feet in length lined in green with a gold chevron, the official school colors. The hood trim is green for M.D. graduates and dark blue for Ph.D. graduates.
- ✦ Honor cords worn by students and faculty indicate honor societies and other achievements.
  - Green and gold cords are worn by members of the Alpha Omega Alpha Honor Medical Society, selected by faculty for their promise of becoming leaders in the profession.
  - Gold cords are worn by members of the Gold Humanism Honor Society, elected by their classmates and faculty in recognition of their demonstrated excellence in clinical care, leadership, compassion, and dedication to service.
  - Gold and white cords are worn by students who have earned the AHEC (Area Health Education Center) Scholar distinction.
  - Blue cords are worn by members of The Teaching Academy at the Larner College of Medicine who have shown engagement in teaching, a commitment to quality improvement, and sharing of expertise.
  - Platinum cords are worn by emeriti faculty, who have achieved a career of professional accomplishment and have provided distinguished service to the University, the community, and their professional discipline.

## THE UNIVERSITY SEAL

The University seal, first adopted in 1807, depicts the sun rising over the Green Mountains with the first university building in the upper foreground, and a diagram of the Pythagorean Theorem, a quadrant, and a globe in the lower foreground. The outer ring of the oval reads *Universitas V. Montis*. A.D. 1791, the Latin name of the University related to the French name of the State of Vermont meaning "Green Mountain," and the source of the University's nickname, UVM. The seal also includes the motto *Studiis et Rebus Honestis*, or "For studies and other honest pursuits," and commemorates the establishment of the State Agricultural College: *Collegiumque Agriculturae 1865*.

# Scholarship Support

---

*Choosing to become a physician requires a love of medicine and a commitment to caring, and an investment in hard work, dedication and sacrifice. Philanthropic support of the students who make that commitment is not only an investment in the future, but also an opportunity to share in their success as they make a difference with their patients, in their communities, and around the world. We are grateful to the supporters of the following scholarship and loan funds that provide assistance to medical students at the UVM Larner College of Medicine.*

## The Oath

---

**I swear to fulfill, to the best of my ability, this covenant:**

**I will respect** the scientific gains of those physicians and scientists in whose steps I will walk, and gladly share such knowledge as is mine with those who are to follow.

**I will remember** that there is both art and science to medicine.

**I will pursue** the expansion of my knowledge throughout my life for the benefit of my patients.

**I will practice** medicine with conscience and dignity.

**I will respect** the privacy of my patients and not judge them.

**I will prevent** disease whenever I can, for prevention is preferable to cure.

Most especially, **I will tread with care** in matters of life and death. If it be merely within my abilities to help ease suffering at the end of a life, may I face this awesome responsibility with humility and awareness of my own frailty.

**I vow** always to act to preserve the finest traditions of my calling, and may I long experience the joy of healing those who seek my help.

*Adapted from the Oath of Lasagna of 1964*

## PROFESSIONALISM STATEMENT

Our Larner College of Medicine community upholds the highest standards of professionalism as we follow our passion for lifelong learning and improvement. We demonstrate professionalism through integrity, accountability, compassion, altruism, and social responsibility. We honor the trust our society has placed in us as stewards of the art and science of medicine, relying on cultural humility, kindness, and respect to guide our daily interactions. We expect all members of our community to embrace these principles of professionalism as we strive to conduct and support patient care, research, and education that are second to none.
